

Dear Valued Friends,

We regard April 23 National Sovereignty and Children's Day, which was dedicated to all the children of the world by the founder of our Republic, Gazi Mustafa Kemal Atatürk, and which symbolizes national sovereignty, as a universal expression of peace, friendship, and belief in a shared future.

With this understanding, we are organizing a Sister Cities Painting Competition within the scope of April 23 National Sovereignty and Children's Day, with the aim of further strengthening the bonds of friendship and cooperation between our sister cities through culture and art.

The theme of the competition is "Türkiye," and students are expected to prepare original artworks reflecting their own emotions and perspectives in interpreting our country.

All procedures and principles related to the competition, as well as the technical requirements and schedule, will be provided in detail in a guideline document that will be sent to you separately.

We would like to thank you in advance for your interest and contributions to this meaningful initiative, and we hope that our cooperation will continue to grow stronger.

Sincerely,

Hakan ÇEBİ

Acting Mayor of Büyükçekmece Municipality
